

Dear George

I have been buying Robbie's since I last spoke to you and now on my 3rd bag. The transformation has been absolutely fantastic.

My dogs coats are already much more shiny, they so look forward to their food now and all bowls are licked clean, even the fussy dogs finishes every scrap, within a week the change was unbelievable. Poos are perfectly normal now.

The food smells so lovely and every time I open the food bin the fresh smell of herbs come out. It is so easy to prepare and am also saving money as totally stopped using tinned food (my dogs would not eat dry kibble on its own).

Another thing I noticed was that some of my 'fatter' dogs have actually lost weight.

This is truly the best food in years and years and I am recommending it to everyone.

Oh yes, meant also to say that I have tried every dog food on the market and up to now, for about 3-4 years have been using *****, so I am quite experienced on the different types so therefore I am not being 'airy fairy' ref your food as I have never ever come across a food like this which had such instant results.

Thanks again for putting such a wonderful food on the market.

Keep up the good work George, think I might try some myself for my tea!!!! ha ha well if its good enough for my dogs....

Best regards,

Sheelagh
